To: Judy Isbell

Subject: RE: Research on Day

Just a quick note, Judy, to let you know that I'm terribly sorry for being so long in getting back to you. I was unexpectedly taken ill July 15 and have been out for four weeks for post-surgery recovery. I have just come back to work this week and am trying to get caught up on the correspondence.

I'll get back to you as soon as I've had time to do some checking on your Day family.

Sincerely,  
Sherry Owens

Subject: RE: Research on Day family

Sherry,

Thanks again for offering to help me search for missing relatives. I've gone through some notes I took last weekend at the State Archives in Jackson. I found someone who looks like they could be my great great grandfather. Here's what I do know on my paternal line:

There's me, Judy Day Isbell, b. Jan. 26, 1961.

My father, Bobby Gene Day, b. May 15, 1935, d. Nov. 3, 1983.

My grandfather, James Lester Day, b. June 28, 1904, d. Jan. 23, 1986.

My great grandfather, William Floyd Day, b. Jan. 1882, d. 1910.

In the 1900 census in Calhoun County, Miss., in Beat 3, we find William F. Day, 18, and his new wife, Ada Dru Frizzell Day, 17, not married a full year yet. This census, submitted June 11, 1900, shows next door to William and Ada Day is a Day woman who is head of household, her name appears to be Janne or Janie or Jane Day (poor handwriting), white female, 42 years old. Living with her is her daughter Jully or Julley (writing is poor) but definite middle initial E. 20 years old, and her son-in-law Osom C. Henderson, 28.

Going back to the 1880 Census for Calhoun County, Miss., we find this Day family in enumeration District 15 on June 8, 1880.

William Day, 24 years old, white male, farmer, born in Alabama who says his mother and father were born in Alabama. Living with William is his wife, Sarah J. Day, 22, born in Mississippi and whose mother and father were born in Mississippi. They have a son, Leland W. Day, 2, white male son born in Mississippi. Also in the household is Julia E. Day, white female daughter born in Nov. 1879 in Mississippi, they list her age as 5 months old when her birthdate clearly indicates she is 7 months old by the time the census is submitted.

Now, back to 1900 census. William Day is apparently dead. Sarah J. Day is head of household going by the middle name with her daughter Julia in the house with her and her 18-year-old son recently married next door. William Floyd lists his mother as born in Mississippi and his father in Alabama, as does Julia in 1900 — consistent with the states of birth in the 1880 census. Also, the ages are exact matches. Sarah J. Day was 22 in 1880 and 42 in 1900, Julia was an infant in 1880 and 20 years old in 1900, and William F. Day (named for his now deceased father) would have been two years from being born in 1880 and would be appropriately 18 years old in 1900.

would suspect  
they m'd in  
Calhoun Co  
where Courthouse  
fire of 1922  
destroyed  
mrrgc records  
No mrrgc found  
On AL CO for them.

8/18/01

**What I would like to find -- but haven't yet is an 8-year-old William Floyd Day and a 10-year-old Julia E. Day living with their mother Sarah J. Day or Jane Day and father William Day in 1890. It is possible that older brother Leland W. Day might still be living with this family in Calhoun County, Miss., at that time.** no 1890

Do you think this might be available in your records? Also, can you look in the 1900 soundex and see if there is a Janie, Jane or similar Day woman, 42 years old in Calhoun County? She would be living with her daughter and son-in-law near William F. Day and Ada D. Day. b ca 1858

Tracking William and Sarah J. Day back to Alabama may be a problem. I don't know since Sarah J. Day was born in Mississippi and her people were from Mississippi -- what her maiden name was, were they married in Mississippi or Alabama, how soon did they start the family after marrying to get an approximate time of the marriage? Since there was no effective birth control back then, usually children started coming pretty soon after marriage, so we could start looking anywhere from 1876 to 1878 for the marriage before son Leland was born sometime in 1878. But how do I find what part of Alabama William Day might have come from?

It's a great detective story, hunting for illusive relatives. I appreciate your help so much!

Thanks,  
Judy Day Isbell

**Subject:** RE: Research on Day family

Dear Ms Isbell:

Perhaps you could tell me a bit more about your James Day. I was unable to find him listed on the 1900 Calhoun Co, MS Soundex Microfilm. On what page of the 1900 Calhoun County census did he appear? Was he listed as the head of the household? Do you have an approximate birthdate for him?

Our advice is to concentrate on finding your ancestors, starting with yourself and working backwards. Try to find them starting with the 1920 census and work backwards, trying to find them in each census year. We do not advise trying to undertake Native American research based simply on family legend. Almost every family has a story about their Indian ancestor and they almost always prove untrue. Just try to find out as much as you can about each generation as you work backward. If you do find actual evidence one of your ancestors was Native American as you research, then would be the time to think about taking that research avenue. Native American research is very difficult and Indian heritage is very hard to prove.

If you would like to tell me more about what information you do have on your Days, such as dates, spouses, parents (when known), etc., I would be happy to see if I can find any information for you. It also helps to know a bit about what resources you may all ready have, to avoid doing repeat research that you have all ready done. For example, what census records do you all ready have? Have you found marriage records? Do you know when an ancestor died and/or where that ancestor is buried?

This information would help me to do a better lookup for you. If you will write back and give me more information, I will try to get to your lookup as soon as possible. You may have to be a bit patient with us because we always have a number of lookup requests and have to work on them as we can and in the order in which they are received.

Sincerely,  
Sherry Owens

**Subject:** Research on Day family

Hello,

I came into the Pascagoula library a couple of Saturdays ago researching my family -- the Days. I found one link to my great grandfather in the 1900 census from Calhoun County, Miss. I've also found who I believe was his father living nearby in that census. Family legend has it that our paternal line was Cherokee Indian, and I did find a reference to a James Day in the 1880 Cherokee Census who matches the age of the James Day who would have been my gggrandfather, yet I don't know how I can be certain that these are one and the same person. Do you have any advice on locating a relative in the Cherokee nation?

Thank you,  
Judy Day Isbell

**Subject:** RE: Research on Day family

Sherry,

I found what I believe top be a listing for James Day on the 1900 Census in Beat 3 of Calhoun County, Miss. He's listed as head of household with his daughter and son-in-law. He is listed below my grandfather, William F. Day and his wife Ada D. The handwriting is poor here. It looks to be James Day, but the gender is scribbled on my copy, could it be a Jane or Janie Day?

Anyway, the only relative I know is related to me is William F. Day. He is William Floyd, called Willie by family. He was shot and killed in Houston, Miss. in 1910. Two basic stories circulated about the circumstances of his death — one that he was a man who had killed others for hire and was gunned down by relatives of one of his victims, the other that his wife Ada was having an affair with the owner of the Bruce Lumber Mill and that this man shot my great grandfather to get him out of the way. The one consistent piece of the story is that my grandfather (about 6 at the time) was walking with Willie Floyd to the barber shop when Willie was shot down. A traumatic event that grandfather would never talk about as an adult.

Anyway, Willie Floyd and Ada hadn't been married a full year in 1900. There were very few Days in Calhoun County, Miss. around this time period — so they stick out when you find them.

Going back to earlier days in Calhoun County — when parts of it was still Yalobusha County — you find reference to a John Day who had a number of children. But I can't find the connection between Willie Floyd and these Days. Sheer proximity can't determine that connection.

My trouble is that Calhoun County is a burned county and death records started with the state in 1912 — two year too late for Willie Floyd.

Here's some things we know. My grandfather, James Lester Day was born June 28, 1904 in Banner, Miss. He died Jan 23, 1986. My grandmother, Birdie Lucille Haire, was born Dec. 20, 1910 and died May 2, 1992. They married in late 1925 or early 1926 in Calhoun County, Miss., because Mamaw was only 15 when they married.

I found Mamaw's family living in Beat 3 of Calhoun County in the 1910 census.. Mamaw hadn't arrived yet.. but her elder brothers and sisters showed up and the last named was misspelled in the census as Hare. Her father's named was Melton Haire but was listed in the census as Bird Hare — the name he went by.

Right now, I have the 1900 and 1910 census records and my grandfather's death certificate that show definite links. I found listings of Days in the 1850 and 1860 census for Yalobusha and Calhoun County respectively, since the land in question was yalobusha in 1850 and became Calhoun County in 1852 when that county was formed.

I really appreciate your help with this. I'm only able to make weekend excursions to libraries and archives for this and your assistance will be invaluable.

Thank you again,

Judy Day Isbell

**Subject:** RE: Research on Day family

Sherry,

Thanks again for offering to help me search for missing relatives. I've gone through some notes I took last weekend at the State Archives in Jackson. I found someone who looks like they could be my great great grandfather. Here's what I do know on my paternal line:

There's me, Judy Day Isbell, b. Jan. 26, 1961.

My father, Bobby Gene Day, b. May 15, 1935, d. Nov. 3, 1983.

My grandfather, James Lester Day, b. June 28, 1904, d. Jan. 23, 1986.

My great grandfather, William Floyd Day, b. Jan. 1882, d. 1910.

In the 1900 census in Calhoun County, Miss., in Beat 3, we find William F. Day, 18, and his new wife, Ada Dru Frizzell Day, 17, not married a full year yet. This census, submitted June 11, 1900, shows next door to William and Ada Day is a Day woman who is head of household, her name appears to be Janne or Janie or Jane Day (poor handwriting), white female, 42 years old. Living with her is her daughter Jully or Julley (writing is poor) but definite middle initial E. 20 years old, and her son-in-law Osom C. Henderson, 28.

Going back to the 1880 Census for Calhoun County, Miss., we find this Day family in enumeration District 15 on June 8, 1880.

William Day, 24 years old, white male, farmer, born in Alabama who says his mother and father were born in Alabama. Living with William is his wife, Sarah J. Day, 22, born in Mississippi and whose mother and father were born in Mississippi. They have a son, Leland W. Day, 2, white male son born in Mississippi. Also in the household is Julia E. Day, white female daughter born in Nov. 1879 in Mississippi, they list her age as 5 months old when her birthdate clearly indicates she is 7 months old by the time the census is submitted.

Now, back to 1900 census. William Day is apparently dead. Sarah J. Day is head of household going by the middle name with her daughter Julia in the house with her and her 18-year-old son recently married next door. William Floyd lists his mother as born in Mississippi and his father in Alabama, as does Julia in 1900 – consistent with the states of birth in the 1880 census. Also, the ages are exact matches. Sarah J. Day was 22 in 1880 and 42 in 1900, Julia was an infant in 1880 and 20 years old in 1900, and William F. Day (named for his now deceased father) would have been two years from being born in 1880 and would be appropriately 18 years old in 1900.

**What I would like to find -- but haven't yet is an 8-year-old William Floyd Day and a 10-year-old Julia E. Day living with their mother Sarah J. Day or Jane Day and father William Day in 1890. It is possible that older brother Leland W. Day might still be living with this family in Calhoun County, Miss., at that time.**

Do you think this might be available in your records? Also, can you look in the 1900 soundex and see if there is a Janie, Jane or similar Day woman, 42 years old in Calhoun County? She would be living with her daughter and son-in-law near William F. Day and Ada D. Day.

Tracking William and Sarah J. Day back to Alabama may be a problem. I don't know since Sarah J. Day was born in Mississippi and her people were from Mississippi – what her maiden name was, were they married in Mississippi or Alabama, how soon did they start the family after marrying to get an approximate time of the marriage? Since there was no effective birth control back then, usually children

7/17/01

started coming pretty soon after marriage, so we could start looking anywhere from 1876 to 1878 for the marriage before son Leland was born sometime in 1878. But how do I find what part of Alabama William Day might have come from?

It's a great detective story, hunting for illusive relatives. I appreciate your help so much!

Thanks,  
Judy Day Isbell
